DETAILED ACTION

1. This action is responsive to applicant's IDS filed on 1/18/2011.
2. Claims 42-46, 48-49 and 60-73 are presented for examination.
3. The IDS filed on 1/18/2011 have been considered.

Continued Examination Under 37 CFR 1.114

4. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 1/18/2011 has been entered.

Terminal Disclaimer

5. Applicant's terminal disclaimer filed on 3/26/2007 has improperly identified the patent being used for double patenting rejection. The terminal disclaimer identified U.S. Patent No. 6,742,220 which is incorrect. The correct number is 6,724,220. Therefore, applicant's is required to file a terminal disclaimer with a correct U.S. Patent Number.

Drawings

6. The drawings filed on 12/30/2011 are objected to because they're not visually clear, specifically Fig. 1B. However examiner's suggests filing formal drawings for all figures. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
